- 4 x self-tapping screws.

*If any parts are missing / incorrect, please call customer services on*

*UK :- 02476 395 368*

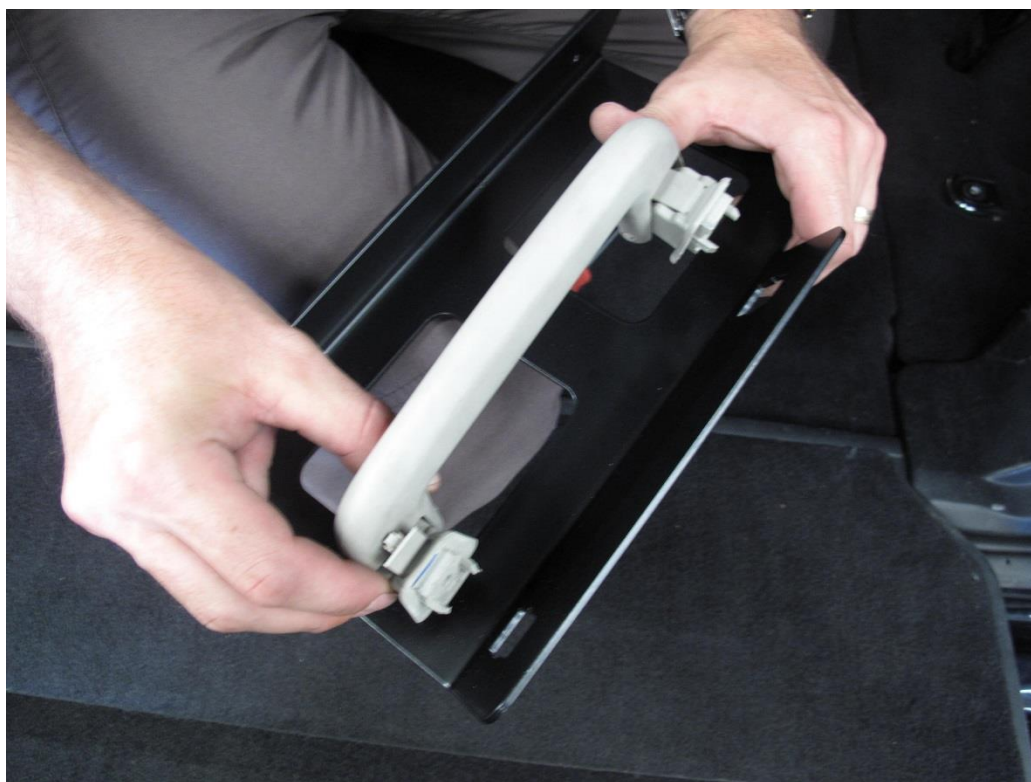

Tools required: - No 2 Philips screwdriver

Installation time approx.---10 mins max

First of all, remove the existing grab handles above the 3<sup>rd</sup> row seats, to do this unclip the 2 flaps and unscrew the handles – (2 x self-tapping screws in each handle)

Fit the Grab handle back into the bracket

Refit to the vehicle with the supplied self-tapping screws. Ensure the screw enters the clip nut correctly when fitting, if it is not correct the screw will “click” when trying to tighten (Do NOT overtighten)

Bracket fitted – NOTE correct orientation for Left and Right hand (R/H shown)

Next fit the shelf into the brackets and loosely fit all 4 thumbwheels and washers.

Tighten the thumbwheels by hand ONLY to secure the shelf, ensuring the mounting brackets are flat against the shelf under side.

**Installation complete.**
